Microsoft AI Cloud Partner Program

Benefits Guide

Updated: July 6, 2026

Microsoft AI Cloud Partner Program

Benefits Guide

Benefits built for your business

Partner benefits packages provide the offerings you need to strengthen your cloud and AI practice through discounted licenses, personalized program and technical consulting, and more. With partner benefits packages, you can:

Strengthen your solutions for customers through benefits that build your cloud and AI practice.

Tap into exclusive product and support benefits to drive success for your business. Partner benefits packages offer in-demand licenses, Azure credits, and personalized consulting that empower you to collaborate, develop offerings, and deliver high-performing solutions for your customers.

Scale your business with cost-saving packages designed to help you achieve more.

Each partner benefits package provides you with a portfolio of key Microsoft products and support services at a significant discount. Partner benefits packages are a cost-efficient way to access the tools you need to grow your business.

Deepen your partnership with Microsoft and drive long-term profitability.

No matter your stage of growth, there is a partner benefits package for you. With several increasingly robust options to choose from, you can select the package that best serves your current needs, then expand your benefits as you continue to grow with Microsoft.

Journey for partners

- New members
- Partner Launch Benefits
- Partner Success Core Benefits
- Partner Success Expanded Benefits

After joining the Microsoft AI Cloud Partner Program, we encourage you to explore the partner benefits packages that can best help you achieve your goals—no matter your size or stage of growth.

- ***Partner Launch Benefits*** are designed to start building high-performing solutions and kick-start your business growth.
- ***Partner Success Core Benefits*** are designed to help you create, build, and expand a strong AI and cloud practice.
- ***Partner Success Expanded Benefits*** are designed to help you scale your reach further and deepen your partnership with Microsoft.

Options for partners providing services

- Solutions Partner designations
- Specializations

After meeting specific criteria for performance, skilling, and customer success, you may also qualify for opportunities to differentiate your business and gain more benefits.

- ***Solutions Partner designations*** are aligned to the three Microsoft commercial solution areas and can help you differentiate your unique capabilities and proven success with customers.
- ***Specializations*** go further to help you demonstrate your deep technical knowledge in a specific area to customers.

Options for partners developing software solutions

- ISV Success
- Solutions Partner with certified software

As a partner in the Microsoft AI Cloud Partner Program, you can access offerings to help you create high-performing software solutions and achieve your business goals.

- ***ISV Success*** enrollment allows you to access a set of technical tools and resources that help you build, publish, and grow your well-architected cloud solutions on the Microsoft commercial marketplace.
- ***Solutions Partner* with certified software** designations** are designed to help you differentiate and validate your solution's capabilities and proven track record of success in areas of high customer demand. When you become a Solutions Partner with certified software, you unlock exclusive badging, marketing tools and resources, and more to help you showcase your solution to customers and Microsoft sellers.

Microsoft AI Cloud Partner Program Benefits Guide

The information in this document is intended to help partners understand the benefits packages offered through the Microsoft AI Cloud Partner Program. Information on our legacy benefits offers is contained here.

All decisions pertaining and related to your business needs including but not limited to strategies, solutions, partner selection, implementation, etc. rests solely with your business. Be sure to review the benefits information in Partner Center before paying the annual fee. Partners must comply with the use terms and policies regarding benefits and license use rights and limitations about each software product or online service as outlined in the Microsoft AI Cloud Partner Program Terms of Participation Guide. For more information, refer to the links below:

Learn more about the Solutions Partner designations in Partner Center or on the Microsoft partner website.

Learn more about managing your benefits.

Offer benefits are provided once payment has successfully processed, which may take a few days.

February 2026 benefits update

In February 2026, Microsoft updated several benefits offerings to empower our partners to stay on the cutting edge of AI transformation. In this section of the benefits guide, you'll be able to review each change that was made.

Because these updates grant access to product licenses, Azure credits, and support benefits that empower you to lead in AI and security—two areas of high customer demand—they come with a modest 3% price adjustment to reflect the added value.

The tables in this section show ***only the benefits that changed*** during the February update. Each offering is divided into two columns: 2025 and 2026. You'll be able to view how a given benefit within that offering changed between the two years. If a benefit does not appear in the following tables, that means it did not change between 2025 and 2026. View the example table below.

For the full scope of benefits each offering provides—not just the benefits that were updated—explore the various offering sections in this benefits guide.

February 2026 benefits update: Partner benefits packages

Solutions Partner designations for partners providing services

Benefits included with all Solutions Partner designations

Product benefits

Benefits included with all Solutions Partner designations, otherwise known as common benefits, are provided once, regardless of which Solutions Partner designation(s) are attained. Training Services partners who have attained a Solutions Partner designation for Training Services receive the same licensing benefits by solution path.

Product and offer terms and conditions apply. Details are subject to change.

Marketing benefits (or 'Go-to-Market')

	Name or description	Quantity
	Accelerate partner outcomes with Partner Concierge	50
NEW 2026	Partner Marketing Center Pro	✓
	Geo Expansion Readiness Assessment	✓

Support and advisory benefits (formerly 'technical benefits')

Name or description	Quantity
Technical presales and deployment services (TP&D) • Advisory hours to help plan, build, and implement solutions • Assistance with technical sales prep and deal enablement	50 hours Unlimited
Partner cloud support incidents	50
Microsoft Product Support (on-premises) incidents	20

Solutions Partner designation specific benefits (incremental)

Product benefits

Benefits that are specific to and depend on the designation(s) attained, otherwise known as incremental benefits, are additive (exceptions apply) to each other and to common benefits. In particular, product benefits—formerly Internal Use Rights (IURs)—are aligned to the Solutions Partner designations as well as specializations and expert offerings.

Product and offer terms and conditions apply. Details are subject to change.

The six previous solution areas were **consolidated into three commercial solution areas** in 2025. The customer-facing Solutions Partner designation badges are now named to align to the three commercial solution areas: AI Business Solutions, Cloud & AI Platforms, and Security.

Incremental product benefit categories (with links)

Commercial solution area	AI Business Solutions	Cloud & AI Platforms	Security
Solutions Partner designations	Solutions Partner designation for Business Applications Solutions Partner designation for Modern Work	Data & AI (Azure) Digital & App Innovation (Azure) Infrastructure (Azure)	Security

Note: Solutions Partner product benefits for Data & AI, Digital & App Innovation, and Infrastructure have a set of benefits which are 'core' across the three Azure designations.

Specializations and expert offerings product benefits

Specializations and expert offerings

Product benefits

As part of the Solutions Partner benefits, if you have earned a specialization, you will receive incremental product benefits to help further accelerate your business. Incremental benefits for specializations and expert offerings are only available with Solutions Partner benefits and cannot be added to legacy benefits.

Each category of the specializations and expert offerings (Azure, Business Applications, Modern Work, and Security) has individual maximum cap amounts for benefits provisioning: the number of specializations or expert offerings in that category which will be eligible for incremental product benefits. Refer to the table of specializations and expert offerings benefits categories for the classification. The max cap amounts are outlined in the following tables. Details are subject to change.

Specialization and expert offering benefits will be provided at the time of purchasing Solutions Partner benefits, or at the time of attainment through the remainder of the Solutions Partner membership year for additional specializations and expert offerings attained (within the respective max cap amounts). Refer to the illustrative example for more details.

Specializations and expert offerings benefits categories

The classification of specializations and expert programs for the purposes of benefits provisioning and capping is based on the current specialization classification and includes Azure Expert MSP. For clarity, these classifications and the associated specializations and expert offerings are listed below. Product benefits for specializations and expert offerings are capped at a particular amount by category as set out in this document. Details are subject to change.

Category	Specialization or expert program name
Azure	AI Apps on Microsoft Azure Azure Expert MSP Infra and Database Migration to Microsoft Azure* SAP on Microsoft Azure Data Warehouse Migration to Microsoft Azure Kubernetes on Microsoft Azure Migrate Enterprise Applications to Microsoft Azure Microsoft Azure Virtual Desktop Analytics on Microsoft Azure Microsoft Azure VMware Solution AI Platform on Microsoft Azure DevOps with GitHub on Microsoft Azure Hybrid Cloud Infrastructure with Microsoft Azure Stack HCI Networking Services in Microsoft Azure
Business Applications**	Low Code Application Development Business Intelligence Intelligent Automation Small and Midsize Business Management Sales Service Finance Supply Chain
Modern Work	Microsoft Copilot Modernize Endpoints Adoption and Change Management Calling for Microsoft Teams Customer Solutions for Microsoft Teams Meetings and Meeting Rooms for Microsoft Teams Teamwork Deployment
Security	Cloud Security Identity and Access Management Data Security Threat Protection

Refer to the Change log items no. 7* and no. 8** for more details.

Azure specialization and expert offering product benefits

Max cap amount: **5 specializations or expert offerings**

Azure credits provided for Security Copilot part of Security specializations can solely be used for that purpose. Any other use is strictly prohibited.

Illustrative example

Review this illustrative example to better understand how the benefits are provided to Solutions Partners for their Solutions Partner designation(s) and specialization(s) or expert offering(s). In this example, "benefits" refers to the items listed in this document and excludes other provisions such as badging. Details are subject to change.

This example follows the fictional company 'Contoso', that has attained a legacy gold competency with a single Azure specialization, whose annual legacy competency anniversary date is January 1.

Date	Contoso action	Benefits provided
Oct 2022	**Contoso meets the requirements for, and attains, the Solutions Partner for Infrastructure (Azure) designation.**	No change. Contoso continues to receive and be able to activate their legacy gold competency benefits until their next anniversary date (Jan 1, 2023).
Dec 2022	**Contoso earns an additional Azure specialization (total of two).**	No change (incremental benefits for specialization are only available with Solutions Partner benefits).
Jan 2023	**At renewal, Contoso meets the requirements for the Solutions Partner for Infrastructure (Azure) designation, selects the benefits for Solutions Partners, and pays the aligned fee.**	Contoso is provided the common benefits, the Infrastructure (Azure) product benefits, and two sets of the Azure specialization product benefits (assuming continued enrolment and eligibility of both specializations).
Feb 2023	**Contoso meets the requirements for, and attains, the Solutions Partner for Data & AI (Azure) designation.**	Contoso is provided the incremental Data & AI (Azure) product benefits (i.e., Azure credits, Visual Studio subscriptions), with an expiry date of Contoso's next membership anniversary date (Jan 1, 2024).
Mar 2023	**Contoso meets the requirements for, and is awarded, four additional Azure specializations (total of six).**	Contoso is provided three additional incremental sets of the Azure specialization product benefits (considering the max cap of five Azure specialization benefits) with an expiry date of Contoso's next membership anniversary date (Jan 1, 2024).

Benefits for partners providing software solutions

Solutions Partner designation specific benefits (incremental)

Product benefits

Benefits which are specific to and depend on the designation(s) attained, otherwise known as incremental benefits, are additive (exceptions apply) to each other and to common benefits. In particular, product benefits (formerly 'Internal Use Rights', or 'IURs') are aligned to the Solutions Partner designations and to specialization and expert offerings.

Product and offer terms and conditions apply. Details are subject to change.

Incremental product benefit categories (with links)

Solutions Partner designations

Business Applications

Data & AI (Azure)

Digital & App Innovation (Azure)

Infrastructure (Azure)

Modern Work

Security

Note: Solutions Partner product benefits for Data & AI, Digital & App Innovation, and Infrastructure (Azure) have a set of benefits which are 'core' across the three.

Specializations and expert offerings

Azure

Business Applications

Modern Work

Security

Notes: The classification of specializations and expert offerings for the purposes of benefits provisioning is based on the specialization classification listed here. Product benefits for specializations and expert offerings are capped at a particular amount by category as set out in this document.

Specializations and expert offerings

Product benefits

As part of the Solutions Partner benefits, if you have earned a specialization, you will receive incremental product benefits to help further accelerate your business. Incremental benefits for specialization and offerings are only available with Solutions Partner benefits.

Each category of the specializations and expert offerings (Azure, Business Applications, Modern Work and Security) has individual maximum cap amounts for benefits provisioning: the number of specializations or expert offerings in that category which will be eligible for incremental product benefits. Refer to the table of specializations and expert offerings benefits categories at the end of this section for the classification. The max cap amounts are outlined in the following tables. Details are subject to change.

Specialization and expert offering benefits will be provided at the time of purchasing Solutions Partner benefits, or at the time of attainment through the remainder of the Solutions Partner membership year for additional specializations and expert offerings attained (within the respective max cap amounts). Refer to the illustrative example for more details.

Azure specialization and expert offering product benefits

Max cap amount: **5 specializations or expert offerings**

	Microsoft product name or description	Quantity	Type
NEW 2025	**GitHub Copilot Enterprise (via Azure Credits)**	$4,680 USD	Per year
NEW 2025	**GitHub Enterprise Metered (via Azure Credits)**	$2,520 USD	Per year
NEW 2025	**Microsoft 365 E3 (no Teams)** (EEA or RoW)	30	Users
NEW 2025	**Teams Enterprise** (EEA or RoW)	30	Users
NEW 2025	**Entra ID P2**	30	Users
NEW 2025	**Defender for Endpoint P2**	30	Users
	Azure Bulk Credits (Production)	$12,000 USD	Per year
	Visual Studio Enterprise subscriptions*	10	Users
NEW 2025	**Window 11 Enterprise 24H2**	**50**	Licenses
NEW 2025	**Window 11 Enterprise N 24H2**	**50**	Licenses
NEW 2025	**Windows 11 IoT Enterprise LTSC**	**20**	Licenses
NEW 2025	**Windows 11 Enterprise LTSC**	**50**	Licenses
NEW 2025	**Windows 11 Enterprise N LTSC**	**50**	Licenses

Azure credits provided for GitHub Enterprise, and GitHub Copilot as part of Azure specializations can solely be used for those purposes. Any other use is strictly prohibited.

Business Applications product benefits

Max cap amount: **3 specializations or expert offerings**

	Microsoft product name or description	Quantity	Type
NEW 2025	**Microsoft 365 Copilot for Sales**	5	Users
NEW 2025	**Microsoft 365 Copilot for Finance**	5	Users

NEW 2025	**Windows 11 Enterprise N LTSC**	**50**	Licenses

.

**Refer to the Change log item no. 2 for more details*

Azure credits provided for Security Copilot part of security specializations can solely be used for that purpose. Any other use is strictly prohibited.

Specializations and expert offerings benefits categories

The classification of specializations and expert offerings for the purposes of benefits provisioning and capping is based on the current specialization classification and includes Azure Expert MSP. For clarity, these classifications and the associated specializations and expert offerings are listed below. Details are subject to change.

Category	Specialization or expert offering name
Azure	AI Apps on Microsoft Azure Azure Expert MSP Infra and Database Migration to Microsoft Azure* SAP on Microsoft Azure Data Warehouse Migration to Microsoft Azure Kubernetes on Microsoft Azure Migrate Enterprise Applications to Microsoft Azure Microsoft Azure Virtual Desktop Analytics on Microsoft Azure Microsoft Azure VMware Solution AI Platform on Microsoft Azure DevOps with GitHub on Microsoft Azure Hybrid Cloud Infrastructure with Microsoft Azure Stack HCI Networking Services in Microsoft Azure
Business Applications**	Low Code Application Development Business Intelligence Intelligent Automation Small and Midsize Business Management Sales Service Finance Supply Chain
Modern Work	Microsoft Copilot Modernize Endpoints Adoption and Change Management Calling for Microsoft Teams Customer Solutions for Microsoft Teams Meetings and Meeting Rooms for Microsoft Teams Teamwork Deployment

Change log

The following is a summary of the latest updates made to the Microsoft AI Cloud Partner Program Benefits Guide

Please note that program information herein is subject to change and should not be interpreted as an offer, endorsement, guarantee, commitment or any other type of representation on the part of Microsoft. Be sure to review the benefits information in Partner Center before paying the annual fee.

Date	Update number and title	Details
August 2022	1) GTM Toolbox points	While the GTM Toolbox – Used to create co-branded assets – Will remain active, the 18 points for editorial review of the assets will no longer be offered.
	[Removed from tables as of June 2023] 2) Azure dev/test sponsorship and credits	The planned launch of an Azure dev/test bulk sponsorship has been delayed until further notice. In the interim, dev/test credits will be re-introduced to the Visual Studio Enterprise subscriptions. The features of these Visual Studio Enterprise subscriptions will be the same as those offered as benefits for silver and gold competencies.
	[Removed from tables as of August 2024] 3) Windows 11 IoT	Product keys are only provided for software available via volume licensing. Currently Windows 11 IoT is not available in market via volume licensing.
	[Removed from tables as of August 2024] 4) GitHub Enterprise Cloud subscriptions for the DevOps with GitHub on Microsoft Azure specialization	GitHub Enterprise Cloud subscriptions for the DevOps with GitHub on Microsoft Azure specialization will not be available until further notice.
December 2022	5) Updates to language for clarity	A) Updated the name of System Center Configuration Manager Suite to Microsoft Endpoint Configuration Manager. B) Updated the introduction of the Specialization section.

Date	Update number and title	Details
January 2023	6) **Updated System Center Standard, and Client Management Suite to 2022 versions**	Product keys and media for the 2022 versions of System Center Standard and System Center Client Management Suite and been added in Partner Center.
	7) **Updated list of applicable Azure specializations to reflect updates with new Infra and Database Migration to Microsoft Azure Specialization**	As of January 9, 2023, the new Infra and Database Migration to Microsoft Azure Specialization will combine and replace the Windows Server and SQL Server Migration to Microsoft Azure specialization and the Linux and Open-Source Database Migration to Microsoft Azure specialization. Any incremental products benefit packages that have already been provisioned for enrollment in either the Windows Server and SQL Server Migration to Microsoft Azure specialization and/or the Linux and Open-Source Database Migration to Microsoft Azure specialization will not be affected during your current organization's solutions partner designation year. Please note, however, that at your organization's next solutions partner designation anniversary date, only the Infra and Database Migration to Microsoft specialization will be eligible for incremental product benefits against the maximum cap of five Azure specializations.
June 2023	8) **Updated list of applicable Business Applications specializations to reflect updates with four new specializations**	As of March 2023, four new specializations were introduced: Finance, Sales, Service, and Supply Chain. These specializations are eligible for incremental product benefits against the maximum cap of one Business Applications specializations.

Disclaimers

* “Solutions Partner” refers to a company that is a member of the Microsoft AI Cloud Partner Program and may offer software, services, and/or solutions to customers. Reference to “Solutions Partner” in any content, materials, resources, web properties, etc. and any associated designation should be not interpreted as an offer, endorsement, guarantee, proof of effectiveness or functionality, a commitment or any other type of representation or warranty on the part of Microsoft. All decisions pertaining and related to your business needs including but not limited to strategies, solutions, partner selection, implementation, etc., rests solely with your business.

** A certification is (1) specific to the solution’s interoperability with Microsoft products and (2) based on self-attestation by the solution owner. Solutions are only certified as of the date the solution is reviewed. Solution functionality and capability are controlled by the solution owner and may be subject to change. The inclusion of a solution in the marketplace and any such designations should not be interpreted as an offer, endorsement, guarantee, proof of effectiveness or functionality, a commitment or any other type of representation or warranty on the part of Microsoft. All decisions pertaining and related to your business needs including but not limited to strategies, solutions, partner selection, implementation, etc. rests solely with your business.

***Beginning on January 22, 2025, as a one-time occurrence, these specific benefits will be added into existing active instances of this benefit offer.
